

MEASURING INSTRUCTIONS

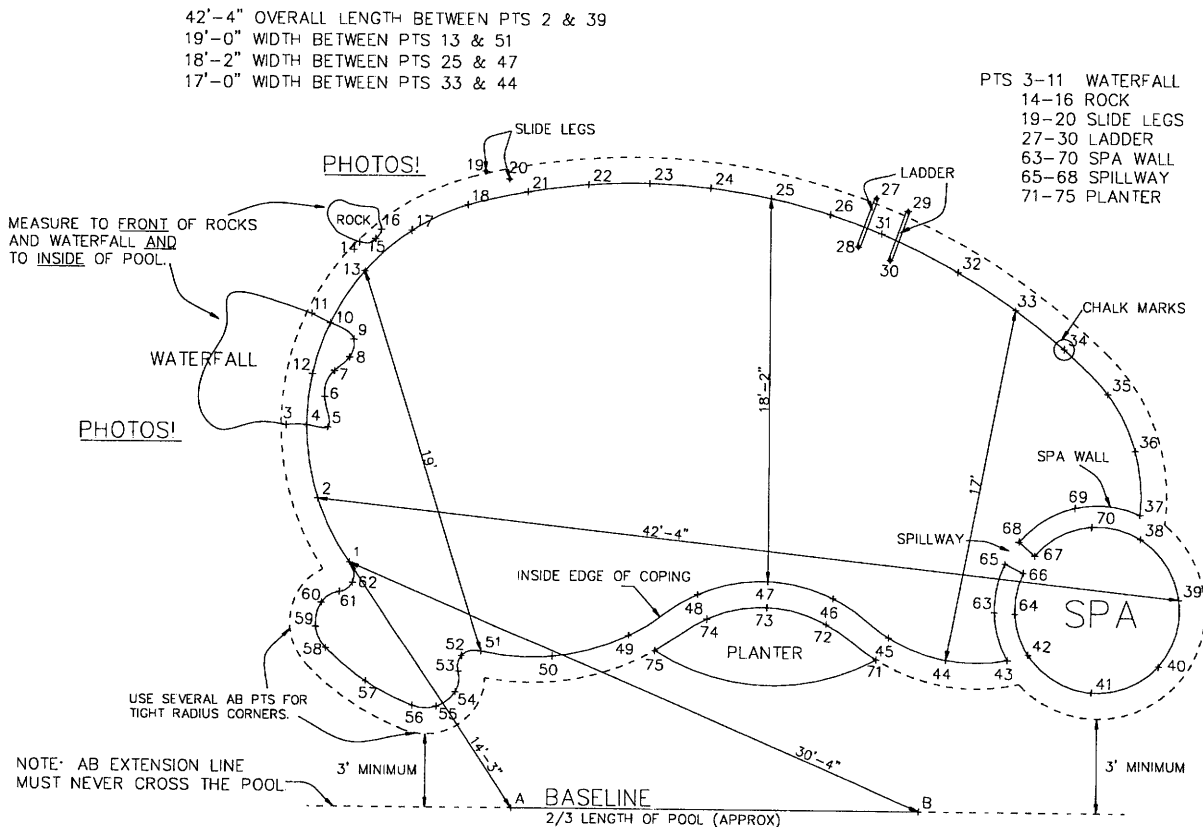

1. Begin with a freehand sketch indicating inside pool dimensions. Include deck area, planters and any obstructions within 3' of the waterline. **A photo of the pool is needed when rocks, waterfalls, raised walls, spas or anything out of the ordinary exists.**
2. Establish two points, "A-B" with "A" on the left as shown. "A-B" line must be at least 3' away from the pool and 2/3 the length of the pool; 20'-25' is typical (show this on the sketch). To mark "A-B" points on deck - use chalk marks, on ground - use stakes in the dirt.

NOTE: The "A-B" line must never cross the pool line and should be approximately 3' away from the pool at the closest point (4' to 5' away for pools over 44' long).

3. Using chalk, mark and number points along the inside edge of the pool at approximately 3' intervals. Number all corner points, ladders, handrails, grabrails, slide legs, rocks, spillways, spa walls separating spa and pool, fill spout and dive stand. **1' to 2' intervals should be used in small or tight radius areas.** For raised area, points should be taken to the beginning, the end, the front and the sides of raised area where cover is to be attached, as well as the pool wall at 1' intervals. Straight walls should have at least 3 points, beginning, middle and end.
4. Measurements are now taken from point "A" to point #1, then point #2, and all the way around the pool. Then measure from point "B" to same point #1 and then #2, as you did for point "A". Measurements are listed in column format as shown.
5. Take measurements **between 2 known points** to determine the length and width of the pool. Additional measurements for difficult pools are suggested. Cross dimensions to any raised beam obstacles are also recommended.

NO.	A	B

* Replacement Covers - A-B line should be 3' back from anchors. Same A-B line should be used for both pool and anchors whenever possible. If same A-B line not possible, common A-B points and the relationship between the 2 different A-B lines must be shown. **Please use Loop-Loc's replacement/alteration measuring form.**

OBSTRUCTIONS:

CHECK ONE YES NO

- 1. Are there any **non-removable** handrails, grabrails, or ladders?...
 - a. "A-B" dimensions are required to front center of all rails, blocks, cups, and to the points where rails dip below coping.
 - b. Distance rails extend into pool _____
Distance rails are set back from pool _____
Type of grabrail: Rail Concrete block/Anthony type
- 2. Are there any raised rail sockets?.....
 - a. "A-B" measure front center of socket.
 - b. Height of sockets _____ (3" or higher require cutout.)
- 3. Are there any grab rocks?.....
 - a. If yes, **PHOTO REQUIRED.**
"A-B" front center of each grab rock, and provide width of each.
 - b. Width of each grab rock. _____
Distance grab rocks are set back from pool _____
- 4. Is there a **non-removable** fillspout?.....
 - a. "A-B" dimensions needed for start and end of pipe.
 - b. Fillspout is: Level with deck Raised
If raised, how high? _____
Distance set back from pool _____
 - c. Is end of spout below coping?.....
Distance into pool _____
Distance below coping level _____
- 5. Is there a dive stand?.....
 - Distance set back from pool _____ (A-B if closer than 2')
 - a. Is diving board removable?.....
 - b. Is LOOP-LOC Dive Stand Kit required?.....
- 6. Is there a dive rock?.....
 - a. If yes, **PHOTO REQUIRED.**
"A-B" the sides and front of rock, as well as the pool wall, using 1' intervals. PT. #s _____
 - b. Distance rock overhangs pool edge _____
Distance rock extends below deck level _____
 - c. Height of rock _____
- 7. Are there slide legs within 2' of pool?.....
 - a. If yes, give "A-B" dimensions to each leg, and give the distance each is set back from pool edge.

SPA INFORMATION: PHOTOS REQUIRED

- 8. Is there a spa?
 - Coping width _____
 - a. Is spa to be included in this estimate/order?.....
 - Is separate cover required for spa?.....
 - One cover for pool and spa?.....
 - b. Is spa raised above pool?.....
 - If yes, how high? _____
 - c. Can anchors be installed on the outside spa wall?.....
(For Safety 16" height or greater cover must be designed to anchor into spa side wall)
 - d. Is spa dividing wall flush with top of coping?.....
"A-B" Dimensions required on both Spa & Pool side of wall.
 - e. Does spa wall have an open spillway?.....
If yes, "A-B" dimensions are required to locate spillway.
 - f. If solid w/drains, is drain panel wanted in spa area?.....
 - g. Are there any other specific spa cover design instructions?.....
Please specify: _____

Dealer/Company Name: _____

Phone# _____ Fax# _____

DECKING & COPING:

CHECK ONE YES NO

- 9. Coping Width _____ Coping Material _____
 - a. Is coping rough?.....
 - b. Rolls of "Undr Covr" padding wanted?.....
 - c. Sewn perimeter padding wanted?.....
- 10. Deck Width (including coping) _____
indicate area less than 3' on sketch
- 11. Deck Material: please show on sketch if deck type varies
 - a. **Wood:**
Loop-Loc Wood Deck anchors wanted?
 - b. **Paver Deck:**
Loop-Loc Pipes wanted for anchor in pipe installation?.....
 - c. **Planters or Grass Areas:**
Loop-Loc Pipes wanted for anchor in pipe installation?.....
Overlap wanted in planter area _____ (minimum 9" for safety)
- 12. Auto Cover box?.....
 - a. Is cover box flush with coping?.....
 - b. Is cover box raised? If yes, how high _____
 - c. Dividing wall between waterline and coverbox? Width _____

RAISED AREAS: PHOTOS REQUIRED

- 13. For safety cover, verify all raised wall areas are strong enough for cover to attach to it with wall anchors and o-rings.
 - a. Facade walls - Are longer wall anchors wanted? (upcharge).....
 - b. Height of Raised area _____
 - c. A-B the beginning, the end, the front and sides of the raised area where cover is to be attached, as well as the pool wall, at 1' intervals.
Note start & end points below:
Begins @ pt # _____ Ends @ pt # _____ | Begins @ pt # _____ Ends @ pt # _____
Begins @ pt # _____ Ends @ pt # _____ | Begins @ pt # _____ Ends @ pt # _____
 - d. Waterfall or Rock formations - need distance rocks overhang pool edge _____

VARYING DECK LEVELS: PHOTOS REQUIRED

- 14. A-B location for each rise, A-B each level including points on risers to show angle away from pool edge.
Pt # _____ height _____ | Pt # _____ height _____ | Pt # _____ height _____
Pt # _____ height _____ | Pt # _____ height _____ | Pt # _____ height _____
Total Height _____
If there are raised areas or varying deck levels select treatment wanted:
 Raised Wall Treatment Up & Over Treatment Protect-A-Gap with Cable & Cable Kit (Maximum Rise 9") (Rises over 9")

NEGATIVE EDGE/OVERFLOW POOLS: PHOTOS REQUIRED

- 15. Is basin to be included in this estimate/order?.....
 - a. Is separate cover required for Basin?
 - b. One Cover for pool and Basin?(May be non-safe).....
 - c. Elevation difference between pool coping & Basin Coping _____

ONGROUND POOLS:

- 16. Are there varying deck sizes? (If yes, submit sketch).....
 - a. If deck is wood indicate:
 Loop-Loc Wood Deck Flanges Loop-Loc On-Ground Brackets

COMMERCIAL POOLS: Approx. 3x3 sections over 2,100 sq. ft.

- Pool type: Skimmer Exposed Gutter
Gutter width _____
Measure to deck edge & indicate location of gutter on sketch
- 17. Are there any specific design instructions? Please specify.
